

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

In the Claims:

11. (Currently Amended) A multi-cellular pleated shade [[member]] for covering a window having a front surface and a back surface opposed to one another comprising:

a series of front cells each cell having an outer wall and an inner wall, the outer wall [[having a crease]] folded back to form a pleat and the front cells being connected to one another in a manner so that the [[creases]] pleats of all front cells are parallel and the outer walls of the front cells form at least a portion of the front surface;

a series of back cells connected to the front cells, each back cell having an outer wall and an inner wall and a tab extending from the outer wall away from the inner wall; the back cells being connected to one another in a manner so that the tabs are parallel and the outer walls of the rear cells form at least a portion of the back surface.

12. (Currently Amended) The multi-cellular pleated shade [[member]] for covering a window of claim 11 wherein the inner wall of at least one front cell is also the inner wall of at least one back cell.

13. (Currently Amended) The multi-cellular pleated shade [[member]] for covering a window of claim 11 wherein the front cells and the rear cells form a double cell honeycomb material.

14. (Currently Amended) The multi-cellular pleated shade [[member]] for covering a window of claim 11 wherein each back cell is comprised of two strips of shade material bonded together to form the tab and the outer wall.

15. (Currently Amended) The multi-cellular pleated shade [[member]] for covering a window of claim 14 also comprising an adhesive bonding the two strips of shade material together.

16. (Currently Amended) The multi-cellular pleated shade [[member]] for covering a window of claim 11 wherein each tab is formed by separate pieces of fabric bonded together by one of an adhesive, a hot melt adhesive and an ultrasonic bond.

17. (Currently Amended) The multi-cellular pleated shade [[member]] for covering a window of claim 11 wherein each tab has a width of at least 1/16 inch.
